

# Illinois Youth Survey

## 2012 County Report

County Name: Kane

*Data collected Spring 2012*

## Introduction

Based on the administration of the Illinois Survey (2012), this report provides county-level data on a variety of health and social indicators such as drug use, bullying, and school climate. The data has been organized into topical sections as noted in the table of contents following this introduction. In most cases, only a portion of schools in a county participate in the Illinois Youth Survey (IYS). There will be NO DATA presented in this report for any grade level with only one district reporting. This is to protect the confidentiality of district-level results.

The IYS is offered to both public and private schools. In order to have the best understanding of how well the results in this report reflect the experience of the youth in this county, several factors should be considered including: Public School Building Participation, Public School Student Participation, and Private School Student Participation.

### Public School Building Participation

In Table 1, the **number of eligible public schools** (i.e. contain at least 15 students at the 6<sup>th</sup>, 8<sup>th</sup>, 10<sup>th</sup>, or 12<sup>th</sup> grade level) is compared with the actual **number of IYS participating public schools** in the county.

**Table 1: Public School Building IYS Participation by School Level**

Elementary & Middle Schools (6th and/or 8th grades)		High Schools (10th and/or 12th grades)	
N Schools Participating	N Schools Eligible	N Schools Participating	N Schools Eligible
21	70	3	16

### Public School Student Participation

Table 2 provides a comparison between the actual number of students surveyed and the number of all students enrolled in public schools within the county. This percentage can be increased by surveying more schools and students within the county. Again, enrollment totals are based on student enrollment at public schools with at least 15 enrolled students at the 6<sup>th</sup>, 8<sup>th</sup>, 10<sup>th</sup>, or 12<sup>th</sup> grade level. Table 2 is based solely on public school students due to the lack of available enrollment information for private schools.

**Table 2: Public School Student IYS Participation by Grade**

	N Students Surveyed	N Enrolled Students in County	% Enrolled Students in County Reported
6th	3157	9191	34%
8th	2789	9314	30%
10th	1056	9035	12%
Total	7002	27540	25%

### Private School Student Participation

Table 3 provides a count of the number of private school students surveyed in this county. Note that the data presented in this report **includes both public and private schools that participated in this county.**

**Table 3: Number of Private School Students Surveyed by Grade**

6th	8th	10th	12th	Total
0	0	0	0	0

If schools that serve youth in specialized settings like charter schools, alternative schools, etc. participated in the IYS, these students are represented in the survey results but are not included in data summaries presented in Table 2 or Table 3 above.

## **Organization of the Report Data (Data Tables and Charts)**

**Tables can be helpful when** you are looking for a summary of responses for particular survey questions, for example, the percentage of 8<sup>th</sup> grade youth who report using prescription pain killers to get high. Some tables may contain a mean score (an average of all the responses), a median score (the middle point of all responses given) or an "N" (number of students who responded to that question). Tables can also be useful when you need specific data to support a grant or report. If you see an "**N/A (Not Applicable)**" noted in a table, this indicates that the question was **not asked at that grade level**. If you see an "**N/R (Not Reported)**" noted in a table, this indicates that *at least 90% of the students skipped the question for no known reason*, making the results too biased to report.

**Summary charts can be helpful** to view multiple questions in one place (e.g., use of different drugs to determine which is the most used) and to compare your results with the scientific sample of Illinois students who participated in the 2010 IYS. State level results from the 2012 IYS will not be available until late fall. IYS state level norms from 2010 are a good benchmark for immediate decision-making because state estimates stay relatively stable across two IYS administration years. To locate the starting page of the Summary Charts, refer to the Table of Contents on the next page.

Keep in mind that the IYS 6<sup>th</sup> and 8<sup>th</sup> grade forms do not include all questions asked on the IYS high school form. For that reason, responses to some questions do not appear in the tables and the charts for some grade levels. If you would like to determine what section includes responses to a specific survey item or verify if a question was asked at a specific grade level, please refer to the Site Report Appendix on our website <http://iys.cprd.illinois.edu/results/individual-school-reports>.

We are confident that you will find this report to be a valuable resource for planning, grant writing, program development and reporting. If you have any questions about this report, please call 888-333-5612 and ask for an IYS Coordinator or visit the IYS website at <http://iys.cprd.illinois.edu/>.

## Summary Charts

Summary charts provide a snapshot of selected health and social indicators. All charts provide grade-level data. Some charts illustrate comparisons between one grade level of *Your Students in 2012* with the same grade level in a statewide random sample of *Illinois Students in 2010* (as noted in the introduction to your report). Other charts provide a comparison of *Your Students in 2012* across all grades surveyed to easily surface developmental trends.

**Your report may not contain the full array of charts listed below.** As noted in the introduction to your report, there will be NO DATA presented in this report for any grade level with **fewer than 10 valid surveys** in order to protect the confidentiality of your students. In addition, the IYS 6th and 8th grade forms contain a subset of the questions asked on the IYS high school form. As a result, some of the charts listed below may not be included in your report. Information about the availability of grade-specific charts or data is defined for each chart below. If an item within a chart is not displayed for a grade level (most often 6th and 8th grades), a footnote is included on the chart to explain.

### Substance Use Behaviors and Consequences

#### *Substance Use in the Past Year*

- Separate chart displayed for each grade level surveyed
- Your Students in 2012 compared to Illinois Students in 2010

#### *Substance Use in the Past 30 Days*

- Separate chart displayed for each grade level surveyed
- Your Students in 2012 compared to Illinois Students in 2010

#### *Average Age of First Use: Among 12th Graders Having Ever Used the Drug*

- ONLY reported for 12th graders
- Your Students in 2012 compared to Illinois Students in 2010

#### *First Use Before Age 15: Among 12th Graders Having Ever Used the Drug*

- ONLY reported for 12th graders
- Your Students in 2012 compared to Illinois Students in 2010

#### *Source of Alcohol in the Past Year: Among Alcohol Users*

- Separate chart displayed for each grade level surveyed (these items are not included on the IYS 6th grade form)
- Your Students in 2012 compared to Illinois Students in 2010
- Note that alcohol sources are classified into types based on responses to a specific set of questions on the IYS. To determine what items are included in each type of alcohol source, refer to the relevant tables in the **“Drug Use Contributing Factors”** section of this report.

#### *Source of Tobacco in the Past Year: Among Tobacco Users*

- Separate chart displayed for each grade level surveyed (these items are not included on the IYS 6th grade form)
- Your Students in 2012 compared to Illinois Students in 2010
- Note that tobacco sources are classified into types based on responses to a specific set of questions on the IYS. To determine what items are included in each type of tobacco source, refer to the relevant tables in the **“Drug Use Contributing Factors”** section of this report.

#### *Driving Under the Influence in the Past Year*

- Your Students in 2012 compared to Illinois Students in 2010

#### *High School Students Who May Benefit from an Individual Substance Abuse Assessment: By Grade in 2012*

- One chart displaying all grade levels surveyed (NOT included on the IYS 6th grade or 8th grade forms)
- No comparisons between Your Students in 2012 and Illinois Students in 2010 are available because the questions from the CRAFFT Screening Tool are new in the 2012 IYS.

### Interpersonal Violence and Safety

#### *Bullying Victimization in the Past 12 Months*

- Separate chart displayed for each grade level surveyed
- Your Students in 2012 compared to Illinois Students in 2010

#### *Extent of Bullying in the Past 12 Months: By Grade in 2012*

- One chart displaying all grade levels surveyed
- No comparisons between Your Students in 2012 and Illinois Students in 2010 are available because one additional form of bullying (cyber-bullying) is new in the 2012 IYS, making the 2010 vs. 2012 summaries incomparable.

#### *Bias-Based Bullying Victimization in the Past 12 Months: By Grade in 2012*

- One chart displaying all grade levels surveyed
- No comparisons between Your Students in 2012 and Illinois Students in 2010 are available because the bias-based bullying questions are new in the 2012 IYS.

#### *Dating Violence in the Past 12 Months By Grade*

- Dating Violence is defined as being “punched, hit or threatened in a dating relationship.”
- One chart displaying all grade levels surveyed (NOT asked on the 6th grade IYS form)
- Your Students in 2012 compared to Illinois Students in 2010

### **School Climate**

#### *Student Perceptions of School Climate Mean Scores*

- Separate chart displayed for each grade level surveyed
- Your Students in 2012 compared to Illinois Students in 2010
- In order to compare perceptions across different dimensions of school climate, a mean score for each school climate scale (*Caring Adults, High Expectations, Meaningful Participation, and School Connectedness*) is adjusted to a 4-point scale, where “1”= the least positive and “4”= the most positive perception. To determine what IYS questions are included in each school climate scale, refer to the relevant tables in the “**Academic and School Experiences**” section of this report.

#### *Student Perceptions of School Climate Mean Scores: By Grade in 2012*

- One chart displaying all grade levels surveyed
- In order to compare perceptions across different dimensions of school climate, a mean score for each school climate scale (*Caring Adults, High Expectations, Meaningful Participation, and School Connectedness*) is adjusted to a 4-point scale, where “1”= the least positive and “4”= the most positive perception. To determine what IYS questions are included in each school climate scale, refer to the relevant tables in the “**Academic and School Experiences**” section of this report.

### **Mental and Physical Health**

#### *Mental Health Concerns in the Past 12 Months*

- Separate chart displayed for each grade level surveyed (NOT asked on the IYS 6th grade form)
- Your Students in 2012 compared to Illinois Students in 2010

#### *Prevalence of Obesity According to BMI*

- Obesity is defined by the Centers for Disease Control based on Body Mass Index (BMI) as calculated by a self-reported height and weight ratio for age and gender
- One chart displaying all grade levels surveyed
- Your Students in 2012 compared to Illinois Students in 2010

#### *Nutrition Behavior*

- Separate chart displayed for each grade level surveyed
- Your Students in 2012 compared to Illinois Students in 2010

#### *Frequency of Physical Activity*

- Separate chart displayed for each grade level surveyed
- Your Students in 2012 compared to Illinois Students in 2010
