# Appendix 1: Illinois Community Types

The sampling design assures that youth in the state sample are representative of the state’s diverse community types. These community types have been defined based on the “urbanicity” of the school’s setting. Each county in Illinois is assigned a type based on the Federal definitions of Metropolitan Statistical Areas (MSAs)<sup>1</sup>. Schools are assigned to a county based on the Illinois State Board of Education’s county designation for the applicable school district. Because Cook County is a blend of the City of Chicago and suburban communities, the City of Chicago schools are considered a separate community type. The four types of communities in Illinois are defined as follows:

- Chicago:** the City of Chicago.
- Suburban Chicago:** Counties within the Chicago MSA (excluding the City of Chicago).
- Urban/Suburban:** Counties that are part of MSAs around the state (excluding the counties of the Chicago MSA).
- Rural:** Counties that are not part of a defined MSA.
